

A course presented APRIL 13th to 15th 2012 in Sagno, Ticino – Switzerland

EXPLORING THE ARCHANGELS THROUGH AURA SOMA

with Dominic Yeoman

The Archangels have been appearing through Aura-Soma Equilibrium since 1995. They are part of a greater consciousness that is preparing our progress into the New Time. This special course with Dominic Yeoman introduces you to the gift of each Archangel and shows the role each plays in this journey of evolving consciousness.

The journey started with Archangel Michael and his awakening call as we are asked to begin by aligning with a higher will. By the end of 2011 that journey has reached a significant new stage as the two most recent Archangels appeared in a new quality of colour. Neither hues or tints Jeremiel and Zachariel are mid tone colours which confirm a new level of consciousness is beginning to stabilize in the world. Political awakening which began as the Arab Spring is spreading to many countries as people demand a fairer world while financial and natural crises increase the pressure for change. Come and learn about the Archangels and the challenging but exciting times we are in.

You will be delighted to hear that there is also a strong personal dimension to this course. During the three days you will experience and meditate with many of the Archangeloi sprays. They bring the archangelic energies into your aura to support your personal growth, it is a healing and strengthening process. You are warmly invited to share this special opportunity: a time for yourself and for the world.

Cost of the course: sfr 400.00 – Bookings accepted until March 20th
